Questions about the title IV-B (Child Welfare Services Program)^{1/} should be directed to:

Children's Bureau, Administration for Children, Youth, and Families
Office of Human Development Services
U.S. Department of Health, Education, and Welfare
P.O. Box 1182
Washington, D.C. 20013

^{1/} The administration of title IV-B was transferred from the Administration for Public Services to the Administration for Children, Youth, and Families in September of 1978.

FOREWORD

How many people receive social services; what kinds of services; what do the services cost? Are recipients of these services mainly children or adults? How many people who receive income assistance under the AFDC (Aid to Families with Dependent Children) program also receive social services under the title XX social services program? Does this program provide protective services to adults as well as children? If so, do all the States provide such services? How much do States spend on protective services?

These questions come from the Congress, from Federal and State agencies and organizations, and from the public at large. This publication, Social Services U.S.A., contains data that can answer these questions and many others like them. It is the fifth issue in this series of statistical reports.

All of the material tabulated and analyzed for Social Services U.S.A. was supplied by the 50 States and the District of Columbia. Quarterly, the States provide the Federal Government with reports about the numbers of individuals and families they serve, the services provided, and the costs of these services.

The States and the District of Columbia provide this information under the Federal/State partnership programs for social services authorized by the Congress under the Social Security Act, title XX (the Social Services Program for Individuals and Families), title IV-B (the Child Welfare Services program), and title IV-A/C (the Work Incentive program).

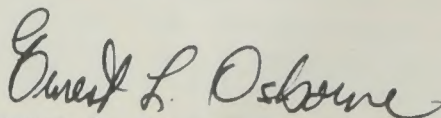

Adoption services, foster care services, day care for children and adults, homemaker services, counseling, and protection against abuse and neglect are among the services on which data are provided in this report. For example, during the year October 1976 through September 1977, 11 million children and adults received services, and the cost of these services was over \$3 billion.

The services were provided for a variety of reasons, such as: to help families with limited incomes obtain day care services for their children so that the parents could continue to work. Or to help disabled and elderly citizens to stay in their homes and communities rather than go into institutions. Services were provided to protect children and adults from abuse and neglect. They were provided so that people who need institutional care can find it in the least restrictive setting possible.

Producing Social Services U.S.A. is truly a joint Federal and State effort. The compilation, tabulation, and analysis of the information involved State staff -- from caseworker to agency director -- and staff from different Federal human services programs. This kind of Federal/State cooperation represents a significant step toward providing the basic kind of information needed to achieve better planning and management of these major service programs.

As Commissioner of the Administration for Public Services, I want to take this opportunity to thank the States for their contribution to this important effort to make information about their social services programs available to the public.

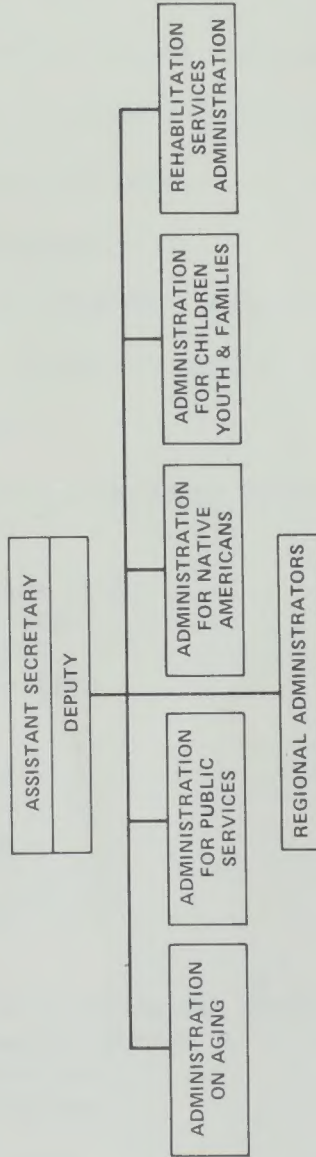

The Administration for Public Services is pleased to present Social Services U.S.A. We welcome your comments and suggestions.

Source: Reports from the 50 States and the District of Columbia

This chart shows which social services were being provided between October, 76 and September, 77 by the 50 States and the District of Columbia. Indicated services are not necessarily offered in all parts of a State. Chart shows services provided under the Child Welfare Services program (Title IV-B), and WIN (the Work Incentive

program under Title I(A/C) as well as services provided under Title XX (all titles from the Social Security Act) Questions about services being provided by States should be addressed to State and local social services agencies.

SECTION I. SOCIAL SERVICES U.S.A. -- ANNUAL SUMMARY

INTRODUCTION

The data in this publication cover social services provided during fiscal year 1977 under three State/Federal social services programs authorized by the Social Security Act:

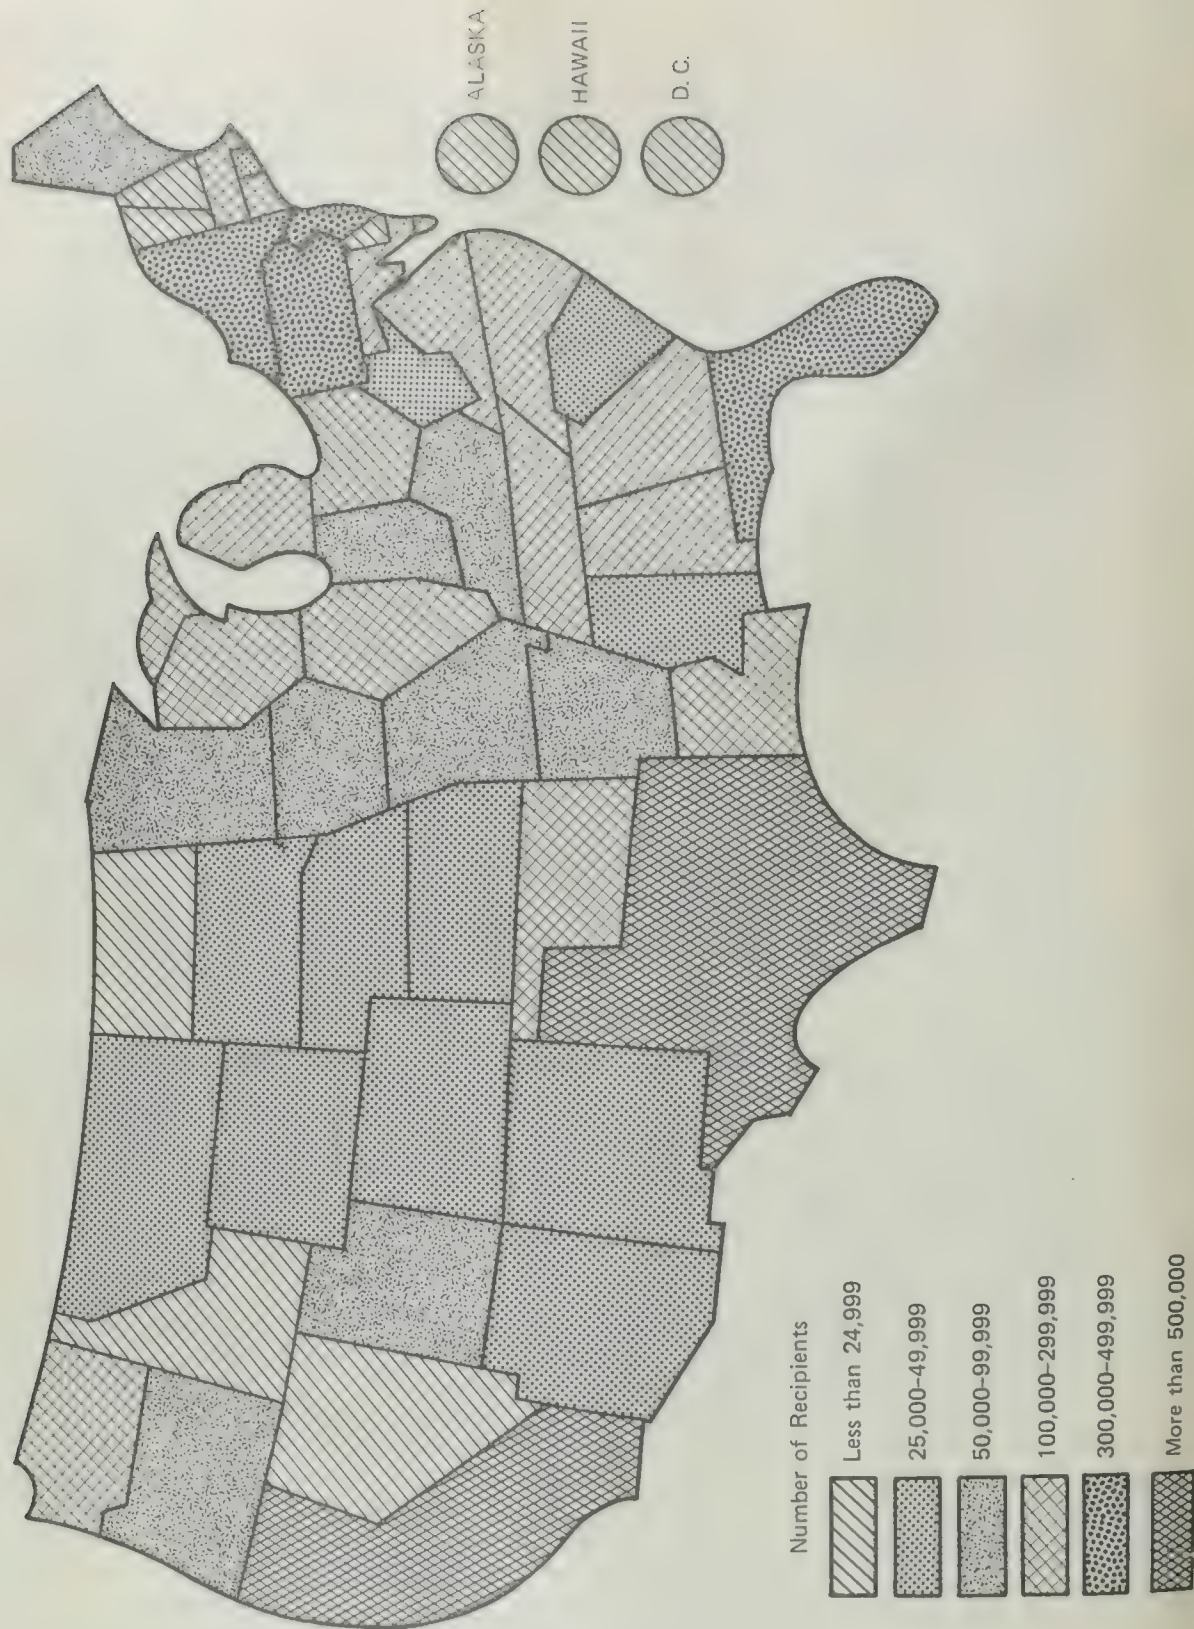

- Title XX -- Social Services Programs for Individuals and Families.
- Title IV-B -- the Child Welfare Services (CWS) program.
- Title IV-A/C -- social services provided as support services to recipients of Aid to Families with Dependent Children (title IV-A) who participate in the Work Incentive (WIN) program (title IV-C).

This issue of Social Services U.S.A. covers four quarters of the Federal fiscal year, October 1976 through September 1977. The report consists of five sections: Section I contains an annual summary of the data in the report, including some descriptive highlights, tabulations, and graphics. Section II provides a set of special annual tables restricted to title XX services. General comments and technical notes comprise Section III, and specific reporting irregularities and data gaps are noted in Section IV. Section V contains tabulations of data on the combined programs for each quarter covered in the report.

The tables in this report contain recipient and cost data: by type of service (including type of day care), by recipient category, by State, by quarter, and by method of service provision.

Four appendices are included in the report: Appendix A contains definitions of reporting terms; Appendix B gives brief descriptions of the Social Services, Aid to Families with Dependent Children, Child Welfare Services, Supplemental Security Income, and Work Incentive (WIN) programs; Appendix C consists of data collection forms used for State reporting; and Appendix D provides regional program addresses.

Figure 1 Distribution by State of Primary Recipients of Social Services Provided Under Title XX, CWS and WIN, October 1976-September 1977

Note: See Section IV, Annotation #8

ANNUAL SUMMARY - SOCIAL SERVICES UNDER TITLES XX, IV-B, and IV-A/C

RECIPIENT TOTALS BY PROGRAM AND CATEGORY

- HEW estimates that approximately 11 million people were recipients of social services under titles XX, IV-B, and IV-A/C during FY'77. This estimate covers all recipients of title XX services, child recipients of title IV-B (Child Welfare Services), and adult recipients of title IV-A/C (WIN supportive) social services.
- Of this estimated number of recipients, 10,072,000 were served under title XX, 6,369,000 of whom were primary recipients; 106,000 children were served under title IV-B; and 507,000 adults received social services under title IV-A/C.

NOTE: Under title XX, a primary recipient is an individual with whom or for whom a specific goal is established and to whom services are provided for the purpose of achieving that goal. Services are considered to be provided to the primary recipient when they are provided to other members of the primary recipient's family to facilitate achievement of the goal of the primary recipient.

For reporting purposes, children receiving services under titles IV-B (CWS) and adults receiving supportive social services under IV-A/C (AFDC/WIN) are also called primary recipients.

- Of the recipients of financial assistance under title IV-A, Aid to Families with Dependent Children (AFDC), approximately 13 percent were also primary recipients of title XX social services, and about 26 percent were either primary or nonprimary recipients of social services under title XX during FY'77. These proportions compare to approximately 14 percent and 28 percent, respectively, in the previous fiscal year.
- Of the recipients of financial assistance under title XVI, Supplemental Security Income (SSI), the estimated proportion who were also primary recipients of title XX social services varied from 13 to 14 percent during the four quarters of FY'77. The comparable proportion ranged from 10 to 13 percent in the previous year.
- As can be seen in Figure 1, Texas and California served the greatest number of primary recipients. The primary recipient count ranged from 7,000 in Alaska to 829,000 in California. California was also the State for which the greatest total costs were reported -- over \$400 million. Although Wyoming served 47,000 primary recipients, it reported the lowest total cost -- less than \$5 million. (See Table A.)

Figure 2A Quarterly Number of Primary Recipients of Social Services Under Title XX, CWS and WIN

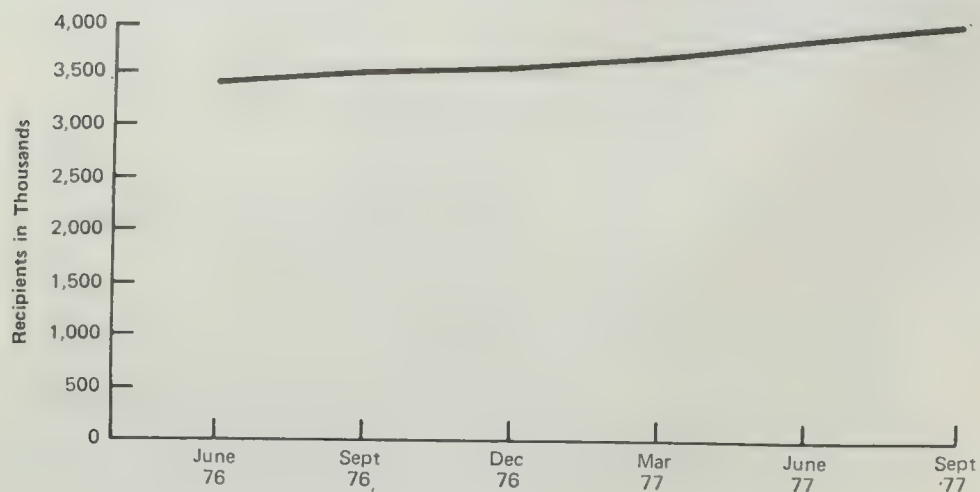

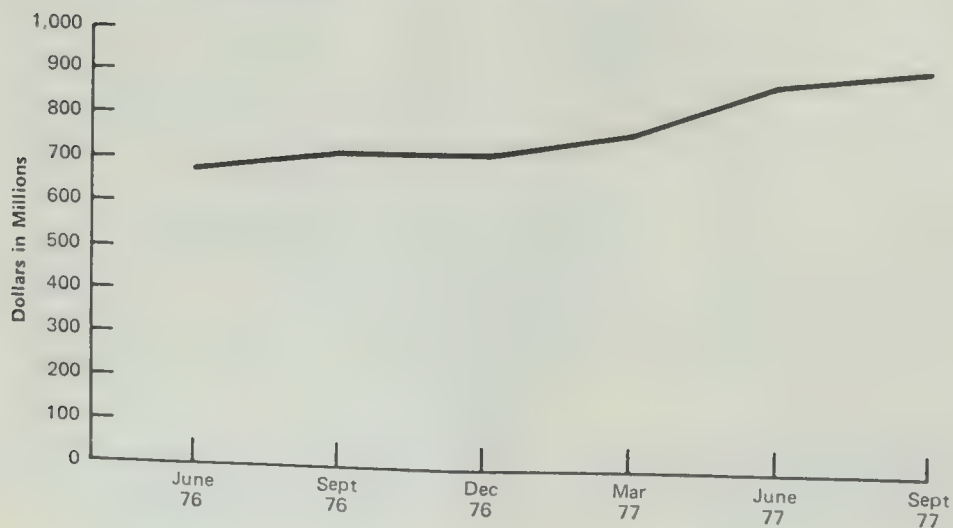

Figure 2B Quarterly Costs of Social Services Under Title XX, CWS and WIN

- The total costs reported by all States and the District of Columbia was over \$3 billion under titles XX, IV-B, and IV-A/C.^{1/} Approximately 6,982,000 primary recipients were served under the combined programs. Of these recipients, 4,897,000 (70 percent) were adults and 2,085,000 (30 percent) were children.
- The national pattern of serving more adult primary recipients than child primary recipients was found to exist in all States except Alaska, Colorado, Nebraska, and Oklahoma.
- As can be seen in Figure 2, a steeper increase occurred in total costs than in primary recipients served, although both have shown a steady increase.

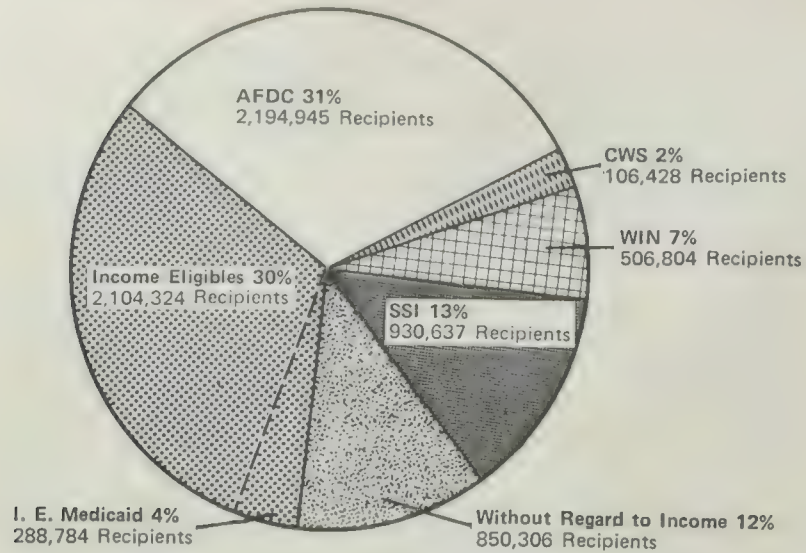

NOTE: Although tabulated data in this section are annual, trend graphs were expanded to include the last two quarters of the previous program year. The quarter ending June 1976 was the first time cost data were collected using the Federal Social Services Reporting Requirements (SSRR).

Between June 1976 and September 1977, total costs increased 35 percent, while the primary recipient count increased only 15 percent. The greatest increase in the count of primary recipients (141,000) occurred between the last two quarters of FY'77. Program costs increased most sharply between the second and third quarters of FY'77 -- by \$107 million.

- Quarterly and annual numbers of primary recipients of services under the combined programs for each State are presented in Table B (based on State submission of SSRR Form 1). The annual total is not the sum of the quarterly totals, but rather the total for the first quarter plus only those primary recipients initiated for the subsequent three quarters. This relationship of annual to quarterly totals applies to other recipient counts based on Form 1 (i.e., Tables A, B, D, E, O, and R). Although nationally there was a gradual increase in the number served (Figure 2), the trend among individual States was far from uniform. (See Table B.)
- Although overall national quarterly costs of services gradually increased in FY'77, this trend was consistent only in Alaska, Minnesota, Nebraska, Ohio, Oklahoma, Texas, and Wyoming. (See Table C.)
- As shown in Figure 3, the two largest categories of primary recipients under the combined programs were AFDC (31 percent) and Income Eligibles (30 percent). These two categories also accounted for the greatest share of the costs, with 30 percent spent for AFDC recipients and 29 percent, for Income Eligible recipients. (See Figure 4.)

^{1/} See Section IV, Annotations #1 and 2.

Figure 3 Number and Percent of Primary Recipients of Social Services Under Title XX, CWS and WIN by Category, October 1976-September 1977

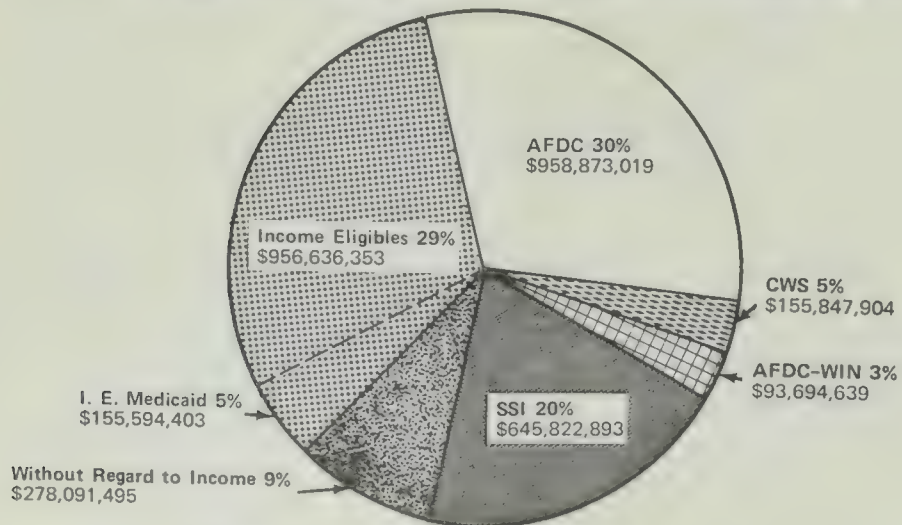

Total Annual Primary Recipients: 6,982,228

Note: Percentages may not add to exactly 100 because of rounding.

Legend:

AFDC = Aid to Families with Dependent Children
 CWS = Child Welfare Services
 I. E. Medicaid = Income Eligible Medicaid
 SSI = Supplemental Security Income
 WIN = Work Incentive Program

Note: See Section IV, Annotations #1 and 2

- Categories of people eligible to receive social services under the title XX program are described below. States have the option to provide services to people in any of these categories. The only restriction is that at least 50 percent of the Federal funds must be expended on services for persons in AFDC, SSI, and/or Medicaid categories.
 1. AFDC - Recipients of AFDC and persons whose needs were taken into account in determining the needs of such recipients.
 2. SSI - Recipients of SSI benefits or State supplemental payments and persons whose needs were taken into account in determining the needs of such recipients.
 3. Income Eligibles - States may set any income limit that does not exceed 115 percent of the State median income adjusted for family size. States may vary the income limits by service. Persons meeting these limits fall in the category of Income Eligibles.

Medicaid - Persons receiving Medicaid but not AFDC or SSI may qualify for title XX services on the basis of their income eligibility (but not on the basis of their eligibility for Medicaid). These Medicaid recipients are identified as such in State reports because of the requirement that at least 50 percent of the Federal financial participation in a State's title XX program be spent on behalf of the AFDC - SSI - Medicaid recipient community.

 - 4. Without Regard to Income - People receiving information and referral services, family planning services, and/or services directed toward the goal of protection for children and adults are eligible for services without an income means test.
- The title XX program is the major program of the three social services programs covered in this report. Approximately 91 percent of the primary recipients of services provided by the combined programs were recipients of title XX services. Similarly, 92 percent of the costs of the combined programs were title XX costs. Figures 5 and 6 depict the distribution, by category, of recipient counts and dollars spent using the title XX program only as a base. (As mentioned in the Introduction, tabulations of data limited to title XX are provided in Section II.)
 - Fifty percent or more of the total primary recipients served in the following States were AFDC recipients: The District of Columbia, New Jersey, Rhode Island, and Wisconsin. In Connecticut, Florida, Hawaii, Maine, New Hampshire, and South Carolina, 50 percent or more of the primary recipients served were in the Income Eligible category. In Alaska, 41 percent of the primary recipients were served Without Regard to Income. (See Table D.)

Note: See Section IV, Annotation #8

- Under the combined programs, the number of primary recipients served increased steadily, reflecting the title XX increase of primary recipients. While the number of title IV-B (CWS) recipients was relatively stable over the six quarters, the number of recipients of title IV-A/C (WIN) was higher for the last three quarters of FY'77 than in the previous three quarters. (See Figure 7.)

Figure 7 Quarterly Number of Primary Recipients of Social Services Provided Under Title XX, CWS and WIN by Program

- As can be seen in Figures 7 and 8, a steeper increase occurred in total costs than in primary recipients served under title XX. The most substantial increase occurred in the quarter ending in June, 1977. For title IV-B (CWS), the greatest increase in costs occurred in the quarters ending in March, 1977 and September, 1977. (See Figure 8.)

FY 77 • XX CWS WIN
Category

NOTE: See Section IV, Annotations #1 and 2.

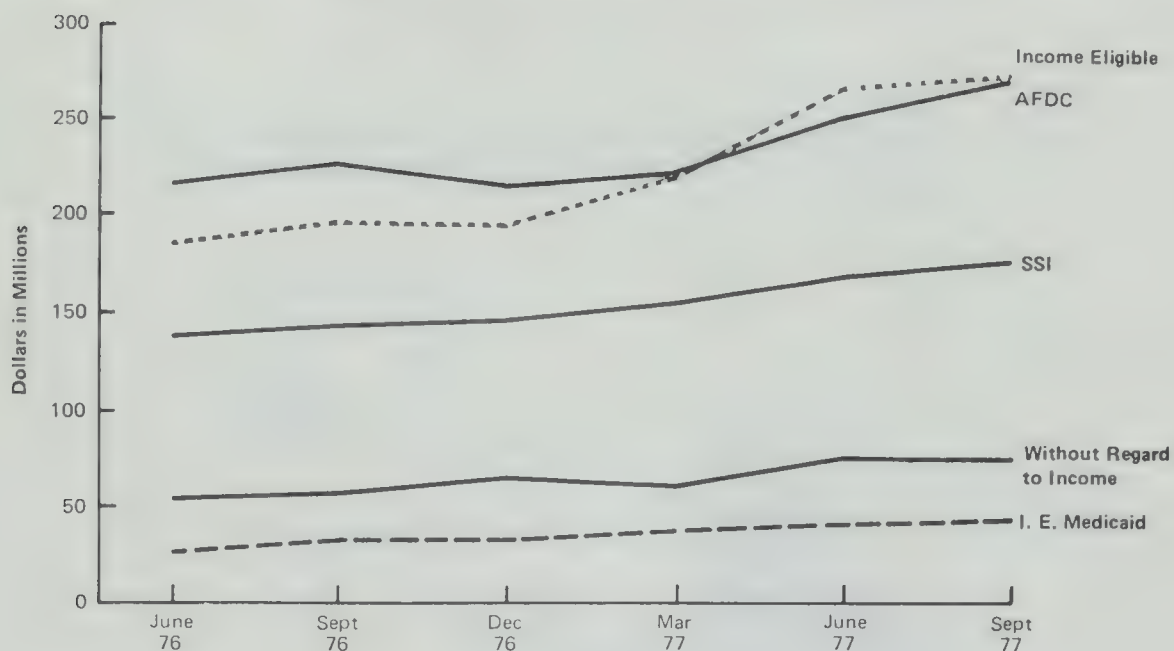

- Although the number of primary recipients served under title XX increased over the six quarters, the number in the AFDC category decreased slightly. The number of Income Eligible primary recipients approached the number of AFDC primary recipients by the end of fiscal year 1977. The number of primary recipients in the Income Eligible -- Medicaid category steadily increased over the six quarters. The greatest increases in primary recipients who were served Without Regard to Income occurred in the quarters ending December 1976 and March 1977. (See Figure 9.)

Figure 9 Quarterly Number of Primary Recipients of Title XX Services by Category

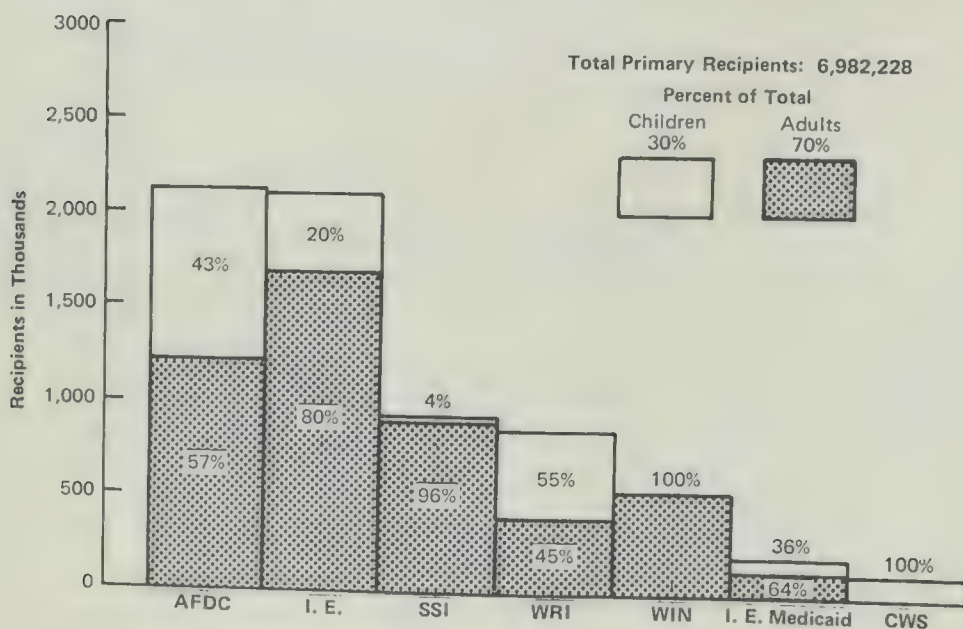

- The distribution of costs by category was relatively constant throughout the six quarters. The only shift was a slight increase in the proportion of dollars spent on services for the Income Eligible category with a corresponding decrease in the proportion spent for the AFDC category. The total amount spent on serving AFDC and SSI recipients showed less growth than that spent on Income Eligible recipients. (See Figure 10.)

Figure 10 Quarterly Costs of Title XX Services by Category

- Most Income Eligible primary recipients were adults (80 percent). (See Figure 11.)
- With the exception of title IV-B (CWS) (which exclusively serves children), the category in which the greatest proportion of primary recipients were children was Without Regard to Income; 55 percent were children. Further analysis of the quarterly data shows that the majority of Without Regard to Income children received protective services, the proportion ranging from 67 percent to 84 percent over the six quarters.

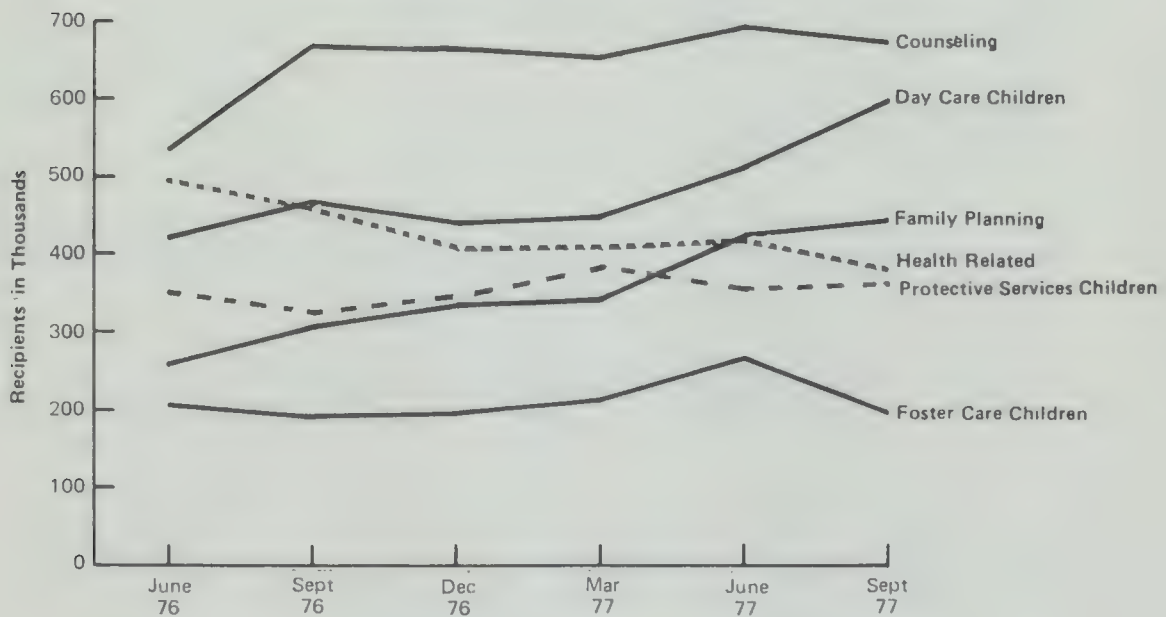

Figure 11 Adult and Child Primary Recipients of Social Services Provided Under Title XX, CWS and WIN by Category, October 1976-September 1977

TYPE OF SERVICE PROVIDED

- For purposes of SSRR reporting, a taxonomy of services was developed resulting in the 37 service descriptors used here. (See definitions in Section III for further information.)
- The number of primary recipients receiving counseling, day care for children, and family planning gradually increased. However, a decline, although not consistent over the six quarters, occurred in the number of primary recipients of health-related services. (See Figure 12.)

Figure 12 Quarterly Number of Primary Recipients of Selected Services Under Title XX, CWS and WIN

- The amount spent on counseling and day care services for children steadily increased over the six quarters. The amount spent on health-related services declined except for the quarters ending March and June 1977. (See Figure 13.)
- The 10 services provided to the largest number of primary recipients (averaged over the four quarters) were:

Counseling Services	664,000
Day Care Services - Children	495,000
Health-Related Services	404,000
Family Planning Services	384,000
Protective Services - Children	361,000
Case Management Services	260,000
Foster Care Services - Children	217,000
Education and Training Services	214,000
Homemaker Services	204,000
Transportation Services	171,000

- Table G presents the quarterly number of primary recipients under the combined programs and the average number served per quarter by service.

Figure 13 Quarterly Costs of Selected Services Provided Under Title XX, CWS and WIN

OTHER	33,700	54,281	68,069	60,394	59,111

- The 10 services for which the most funds were expended during FY'77 were:

Day Care Services - Children	\$689,000,000
Foster Care Services - Children	292,000,000
Homemaker Services	278,000,000
Counseling Services	241,000,000
Protective Services - Children	228,000,000
Education and Training Services	191,000,000
Chore Services	148,000,000
Residential Care and Treatment	140,000,000
Health-Related Services	123,000,000
Employment Services	110,000,000

- Table H presents the quarterly and annual costs of social services under the combined programs and the average per quarter by service for FY'77.
- The SSI category of recipients accounted for almost three-fourths (73 percent) of the cost of chore services, 61 percent of the cost of homemaker services, and about half of the cost of special services for the blind (54 percent) and special services for the disabled (51 percent). (See Table I.)
- Approximately 83 percent of the funds for special services for alcohol and drug abusers and 68 percent of the funds for family planning were spent for recipients in the Income Eligible category.
- Nearly two-thirds (63 percent) of the child protective services costs and 35 percent of the adult protective services costs were for the Without Regard to Income category. In fact, child and adult protective services accounted for 60 percent of all service costs for people in this category.
- About half (52 percent) of the costs for social services provided to AFDC recipients were for child day care, child foster care, and counseling services.
- Slightly more than two-thirds (69 percent) of the costs incurred by the title IV-B (CWS) program were for foster care services for children.

METHOD OF SERVICE PROVISION

- Almost half (48 percent) of the dollars spent on social services were for services provided directly to recipients by State or local public social service agencies. (See Figure 15.) Such directly provided services predominated in Alaska and Idaho (accounting for 90 percent and 100 percent of costs, respectively). (See Table J.)

Figure 15 Percent of Total Costs Under Title XX, CWS and WIN by Method of Service Provision, October 1976–September 1977

Note: Percentages may not add to exactly 100 because of rounding. Costs reported for services provided by the three methods total \$3,374,793,195. This sum exceeds the estimated total cost, \$3,244,560,706 as given in Table A, National Totals by 4 percent. An explanation of this difference may be found in Section III.

- Nationally, the amount spent on services purchased from private vendors was about a third greater than those purchased from public agencies. The two States with the greatest percentage of money spent for services purchased from private agencies were Maine and New Hampshire (65 percent and 67 percent, respectively). A high proportion of the money spent for services provided in Connecticut and Illinois was for services purchased by the public social service agencies from other public agencies (83 percent and 77 percent, respectively).

Note: See Section IV, Annotation. #2

- Services with a high proportion of costs for direct provision by public social service agencies were employment-related medical services, vocational rehabilitation, home management, and protective services for adults and children. A relatively high proportion of transitional services and special services for alcohol and drug abusers was purchased from other public agencies. The greatest percentage of funds spent for services purchased from private agencies was for home delivered/congregate meals, adult day care, and chore services. (See Table K.)
- In general, the amount spent for all three methods of service provision increased after December 1976. (See Figure 16.)
- The greatest relative increase in money spent over the six quarters was reported for the purchase of public services.

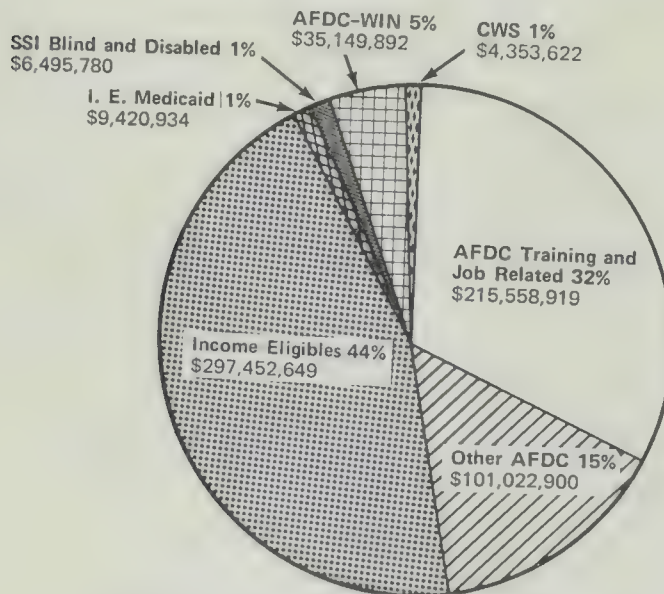

Figure 16 Quarterly Costs of Social Services Provided Under Title XX, CWS and WIN by Method of Service Provision

DAY CARE FOR CHILDREN

- About 20 percent of the dollars spent under the combined programs went for day care for children, making this the largest service cost area. It was also the service with the greatest cost under title XX (20%).
- The amount spent on day care for children in FY'77 was about \$670 million under the combined programs and approximately \$653 million under the title XX program. The largest proportions were spent for children in the Income Eligible category (44 percent) and the AFDC Training and Job Related category (32 percent). (See Figure 17.)

Figure 17 Costs of Day Care for Children Provided Under Title XX, CWS and WIN by Category with Percent of Total, October 1976-September 1977

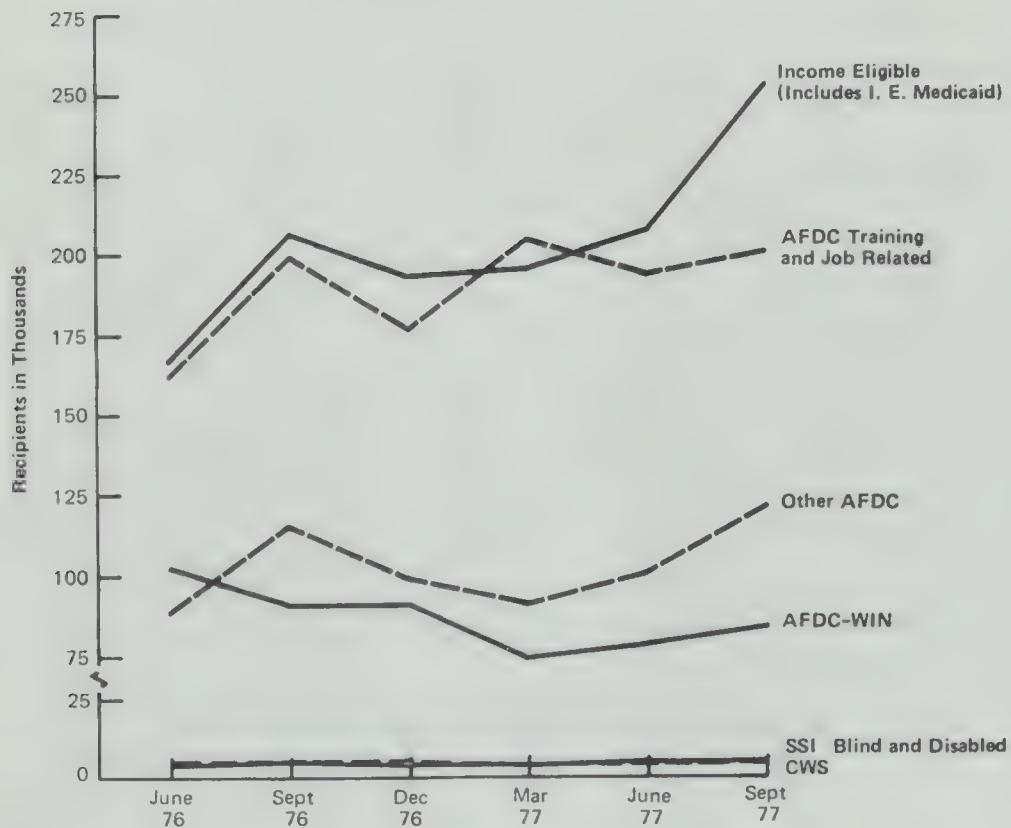

Total Annual Costs of Day Care for Children: \$669,454,696

Note: Percentages may not add to exactly 100 because of rounding.

- While the quarterly number of children receiving day care in the categories of title IV-B (CWS) and SSI Blind and Disabled remained relatively stable, the number of title IV-A/C (WIN) children declined until the April-June 1977 quarter.
- A similarity between quarterly trend patterns for the Income Eligible category and the category called "Other AFDC" can be seen in Figure 18.

Figure 18 Quarterly Number of Children Receiving Day Care Under Title XX, CWS and WIN by Category

- The two categories of children accounting for the greatest growth in dollar amount reported for day care services over six quarters were Income Eligibles and Other AFDC. (See Figure 19.)
- Over the six quarters, while the level of spending on child day care for the Income Eligible category was higher than for the AFDC Training and Job Related category, the spending patterns for these two groups were nearly the same.
- The amount spent for day care services for title IV-A/C (WIN) children declined somewhat over the first four quarters and then increased slightly in the last two quarters.

SECTION II. SOCIAL SERVICES UNDER TITLE XX - ANNUAL SUMMARY TABLE

Although the majority of the tabulations and analyses presented in this report cover the combined title XX, title IV-B (CWS), and title IV-A/C (WIN) programs, this section has been included for the reader who is primarily interested in title XX.

The tables in this section are:

Table N - Quarterly and annual costs of social services, by State.

Table O - Quarterly and annual number of primary recipients, by State.

Table P - Quarterly and annual costs of social services for each service.

Table Q - Quarterly number of primary recipients and the average per quarter for each service.

Table R - Quarterly and annual number of primary recipients, by title XX categories.

SECTION III. GENERAL COMMENTS AND TECHNICAL NOTES

The data presented in this publication are based on social services quarterly reports submitted by the 50 States and the District of Columbia in response to Federal reporting requirements^{1/} for titles XX, IV-B, and IV-A/C. (See Appendix C for data collection forms.) Title IV-B (the Child Welfare Services program) and title IV-A/C (WIN) reporting requirements were revised and integrated with those of title XX to avoid duplication and to help consolidate State and Federal reporting of social services under the Social Security Act.

LIMITATIONS OF DATA

When reviewing the tables, the following general limitations apply:

1. States have the option to produce the data required in the Social Services Reporting Requirements by 100 percent reporting, sampling, or a combination of the two techniques. Many States have chosen the option of sampling in order to produce SSRR data. When sampling techniques are used, the Federal Regional Office must approve the sampling methodology.
2. Due to billing lags and data processing time, costs reported for a given period will not necessarily correspond to the recipient counts reported for the same period. Therefore, in some cases average cost data will display some irregularity.
3. Some zeros are not true zeros. In some cases, recipients may have received services, but the data were not reported.
4. Data on day care, foster care, and protective services are usually classified as either for children or for adults. This distinction was not made, however, for some of the State submittals. In such cases, data were redistributed into "... - Children" and "... Adults" classifications based on adult-child recipient counts. (This affects Tables G, H, I, P, Q, 4, and 5.)

METHOD OF SERVICE PROVISION DATA

Because of differences in sources or estimation methods used in collecting the data, costs from Form 3 of the SSRR, presented in Tables J, K, and 7, differ slightly from costs shown in Tables A, C, F, H, I, 4, and 5 which are based on the Form 2 series.

^{1/} Social Services Reporting Requirements - OMB 85-R0335.

In some instances, the "Various" category of service for day care, foster care, and protective services, as reported on Form 3, could not be redistributed into "Adult" and "Child" as it was on Form 2. (These Form 3 tables are Tables K, 7, and 8.)

Reporting instructions request that information and referral data be reported only on Form 3. Therefore, the counts for this service are only given in the Form 3 tables - Tables K, 7, and 8.

SOCIAL SERVICES DEFINITIONS

Under title XX, each State develops its own Comprehensive Annual Services Program Plan (CASP) defining the services it intends to make available to eligible persons. The services specified in each of the 50 State plans, plus the District of Columbia, totaled 1,313, many of which were not comparable.

In order to achieve a national perspective of social services, an analysis was made of all of the State plans for the purpose of producing a common language, or taxonomy, of social services. This taxonomy, used in compiling the list of services presented in the tables, was developed for reporting purposes only.^{1/} It does not change the intent of Section 2002 of title XX which allows States to determine and define the services which they plan to provide, in the manner they deem most appropriate.

The process of developing this taxonomy from the States' service definitions was complex. Its basis evolved from the activities and subactivities (or components) listed for each service in each State's annual services plan. Where the activities were similar in character, the services they represented were grouped under a common standard service descriptor, regardless of the name and title given the service by the State.

In the taxonomy, the service category of "Other" was included to cover services provided by only a small number of States, where comparability among States was not possible.

Copies of the taxonomy (see footnote this page) showing all 1,313 services and how they are folded into the 41 used in the national reports on social services are available from the National Technical Information Service (NTIS).^{2/} These 41 services were further consolidated into 37 services for many of the tables in this report.

^{1/} A TAXONOMY OF TITLE XX SOCIAL SERVICES, March 1976 (SHR #0000395). Prepared by Mott-McDonald Associates, Inc., Washington, D.C., for the National Conference on Social Welfare under a grant from the (then) Social and Rehabilitation Service, U.S. Department of Health, Education, and Welfare.

^{2/} NTIS address - 5285 Port Royal Road, Springfield, VA 22161; publication number SHR0000395; paper copies - \$9; microfiche copies - \$3.

SECTION IV. ANNOTATIONS TO TABLES

The following identify certain reporting problems and omissions. The annotation numbers are cited in footnotes to the tables.

1. Ohio's revised service cost data for one quarter were submitted too late for inclusion here. The data base, however, will be updated and corrected.

Total costs later reported for the quarter for Ohio amounted to an additional \$1 million, specifically for protective services for children. This represents an additional 0.4 percent of total national costs for this service. This omission affects the annual Tables A, C, F, H, I, N, and P and the Tables 4 and 5 for the quarter ending March 1977.

2. Maryland did not submit, in time for inclusion in this report, cost data by type of service for the quarters ending December 1976 and March 1977. This omission affects the annual Tables A, C, F, H, I, J, K, M, N, and P and the quarterly Tables 4, 5, 7, 9, and 10 for the two quarters. Some indication of the extent of this omission is given by Maryland's proportion of the national costs--which was 2 percent for each reported quarter.
3. Maryland did not submit day care costs data by type of care for the quarters ending June 1977 and September 1977. This omission affects the quarterly Tables 9 and 10 for these two quarters. Total day care costs reported for these two quarters were \$2,355,202 and \$2,649,927, respectively.
4. Ohio's day care cost data were distributed based on recipient counts for the quarters ending March, June, and September 1977. This affects the annual Table M and the quarterly Tables 9 and 10 for these quarters.
5. New York's day care cost data for the quarter ending December 1976 were projected using the State's previous two quarters of day care cost data. This affects the annual Table M and the quarterly Tables 9 and 10 for this quarter.
6. Idaho's day care cost data for the quarter ending September 1977 were projected using its June 1977 cost data. This affects the annual Table M and the quarterly Tables 9 and 10 for this quarter.
7. Average cost per recipient seems in some cases highly irregular because reported costs incurred do not necessarily correspond to reported recipients served during the quarter. This may affect the quarterly Tables 4 and 5 for all quarters. For further explanation of this problem, see "Limitations of Data" in Section III.

8. Annual total primary recipient counts given in Sections I and II are not the sum of the quarterly totals, but rather the total for the first quarter, plus only those initiated for the subsequent three quarters. This relationship of annual to quarterly totals applies to Tables A, B, D, E, O, and R.

SECTION V. QUARTERLY TABLES - SOCIAL SERVICES UNDER TITLES XX, IV-B, AND IV-A/C

The following ten tables for each of the four quarters of FY'77 are based on reports submitted by the 50 States and the District of Columbia in response to the Federal reporting requirements explained in Section III. The programs covered are title XX, title IV-B (CWS), and title IV-A/C (WIN) of the Social Security Act.

Tables 1, 2, and 3 contain primary recipient counts on a State-by-State and a national basis. All of these tables are based on State submission of SSRR Form 1 - Count of Primary Social Services Recipients. (See Appendix C.)

Table 1 provides the total of primary recipients served under title XX, plus recipients served under titles IV-B and IV-A/C, during each quarter. The number of primary recipients who were adults and the number who were children are also included. (The title IV-B recipients are counted as children and the IV-A/C recipients are counted as adults.) This table also shows the number for whom services were initiated and the number for whom they were discontinued during the quarter.

The total recipient count is derived from the "Continued from Last Period" and "Initiated this Period" counts reported on Form 1.

Table 2 presents a count of primary recipients within each recipient category on a State-by-State and a national basis for the quarter.

Table 3 gives both a summary of Supplemental Security Income (SSI) population as well as a breakout of the subcategories of the aged, blind, and disabled.

Tables 4, 5, and 6 contain primary recipient and/or cost data for each type of social service. These three tables are based on State submission of SSRR Form 2 - Social Services Provided to Primary Recipients.

Table 4 presents the numbers of primary recipients of social services and the costs for providing those services on a national basis. The number of States providing the services and the average costs of provision per recipient are also shown. A primary recipient receiving more than one type of service (e.g., family planning and transportation services) was recorded one time for each service. This procedure also applies to Tables 5 and 6.

(State-by-State detail of Table 4 was published in previous quarterly issues and is available upon request for all four quarters of FY'77.)

Table 5 is a national summary of the social services received by each category of recipient. The table presents, for each category, by service, the number of adult primary recipients, the number of

child primary recipients, total cost, percent of total cost (i.e., dollars spent to provide service X to recipient category Y, divided by dollars spent to provide service X to all recipient categories), and the average cost of the service per recipient.

Table 6 provides the number of primary recipients, the number of adults, the number of children, and a percentage distribution by category served for each service.

Tables 7 and 8 present data by "Method of Service Provision" for each service. Some services are provided directly by the State and local public social service agencies ("Direct Provision"); others are purchased by contractual agreement from other types of public agencies ("Purchase Public") or from profit or nonprofit vendors ("Purchase Private"). These two tables are based on SSRR Form 3 - Method of Service Provision to Social Services Recipients.

Table 7 includes recipient and cost data, with a percentage distribution of costs, by method of service provision.

The recipient counts are of all recipients of social services--not just primary recipients. Reporting of instances of information and referral was specifically requested only on Form 3. Thus Table 7 is the only quarterly table which gives recipient and cost data for this service. Information and referral services also are unique in that instances of service provision are reported rather than recipient counts.

Data on day care, including the number of children served and the costs of care, by type of day care (and duration), may be found in Tables 9 and 10.

The counts of children served reflect all child recipients rather than only primary recipients. These two tables are based on State submissions of SSRR Form 5 - Day Care Services Provided to Children.

Table 9 summarizes information for the various types of day care delivered for each State, the number of children served, and costs.

Table 10 provides the national number of children receiving day care and the cost for each category of recipient.

APPENDIX A

GLOSSARY OF TERMS

These definitions apply to social services and to individuals who receive social services under the authority of titles IV and XX of the Social Security Act.

ADULT

An individual who is age 18 or over, or emancipated as determined by State law, except that unemancipated individuals between 18 and 22 if attending school are considered children.

AFDC RECIPIENT

A recipient of AFDC financial assistance who is not a registrant of the WIN program, or an individual whose needs were taken into account in determining the need for aid under title IV-A.

AFDC TRAINING AND JOB RELATED

Recipients who are included in the AFDC financial assistance grant, who are not registrants of the Work Incentive (WIN) program, but who are receiving one or more services which are training and job related.

AFDC-WIN RECIPIENT (TITLE IV-A/C)

An AFDC recipient who has registered in the WIN program.

AFDC-WIN 90/10 SERVICES (TITLE IV-A/C)

Services received by AFDC-WIN recipients at a Federal financial participation (FFP) rate of 90% (with 10% from State and local funds).

AGED

An individual who is 65 years of age or older.

BLIND

An individual who has central visual acuity of 20/200 or less in the better eye with the use of a correcting lens.

CATEGORY OF INDIVIDUAL

Groupings of persons on the basis of common characteristics such as recipient status (e.g., AFDC, SSI, Medicaid).

CHILD

An individual who is unmarried, is not the head of a household, is under age 18, or under age 22 if attending school.

CHILD WELFARE SERVICES CLIENT (CWS) (TITLE IV-B)

A child or member of a family receiving public social services, focused on the needs of the child, which supplement or substitute for parental care and supervision for the purposes of (1) preventing or remedying or assisting in the solution of problems which may result in the neglect, abuse, exploitation, or delinquency of children, (2) protecting and caring for dependent or neglected children, (3) protecting and promoting the welfare of children of working mothers, and (4) otherwise protecting and promoting the welfare of children, and including the strengthening of their own homes where possible, or, where needed, the provision of adoptive services, adequate care in foster family homes, or day care or other child care facilities.

COMPREHENSIVE ANNUAL SERVICES PROGRAM PLAN(CASP)

The State's annual services plan as required under title XX, Section 2004 of the Social Security Act.

DAY CARE

Day Care Center

A licensed facility in which care is provided part of the day for a group of 12 or more children.

Day Care, Full Time and Part Time

Full Time - Care provided for 32 hours or more per week in periods of less than 24 hours per day.

Part Time - Care provided for less than 32 hours per week in periods of less than 24 hours per day.

Day Care Home, Family

A licensed or approved private family home in which children receive care, protection, and guidance during a part of the 24-hour day. A family day care home may serve no more than a total of six children (ages 3 through 14) -- and no more than five when the age range is infancy through 6 -- including the family day care mother's own children.

Day Care Home, Group

An extended, licensed and approved or modified family residence in which family-like care is provided, usually to school age children. It provides care for up to 12 children.

Day Care, In-Home

Care provided for a portion of the day in the child's home by qualified persons other than the child's own parents or the person who normally takes care of the child.

Day Care Services for Adults

Services provided for a part of the day in a protective setting approved by the State agency for purposes of personal attention and to promote social health and emotional well-being through opportunities for companionship, self-education, and satisfying leisure time activities.

Day Care Services for Children

Comprehensive and coordinated sets of activities carried out for the purpose of providing direct care and protection of infants and preschool and school age children during a portion of a 24-hour day, inside or outside of the child's own home.

DIRECT PROVISION

Services provided directly by staff of the appropriate State agency, as designated in the State Administrative Plan, and the local public agencies, as authorized by law to administer social service programs in local jurisdictions.

DISABLED

A disabled adult is one who is unable to engage in any substantial, gainful activity by reason of any medically determined physical or mental impairment which can be expected to result in death or which has lasted, or can be expected to last, for a continuous period of not less than 12 months.

A disabled child is one who suffers from any medically determinable physical or mental impairment comparable in severity to that of a disabled adult.

See definition of adult and child.

FAMILY DAY CARE HOME - See Day Care Home, Family

FEES

Moneys collected from, or billed to, a social service recipient, in full or partial compensation for the services received. The charging of fees can be based on income and family size, or on a graduated scale as specified by Federal regulations.

FULL-TIME DAY CARE - See Day Care, Full Time

GOAL (TITLE XX)

A level of personal functioning, established and agreed upon with an individual or surrogate and toward which services are directed. For purposes of the SSRR, an individual with whom a goal has been established is considered a primary recipient. Goals are:

- Self-support
- Self-sufficiency
- Protection of children and adults
- Community/home-based care
- Institutional care

GROUP DAY CARE HOME - See Day Care Home, Group

INCOME ELIGIBLE

Any individual who is eligible for social services on the basis of income only and who is not an AFDC or SSI recipient, or whose income and resources are taken into account in determining the amount of assistance, and who is not eligible for Medicaid.

IN-HOME DAY CARE - See Day Care, In-Home

MEDICAID RECIPIENT

An individual eligible for social services on the basis of income and who receives medical assistance in accordance with the approved State Plan under title XIX and who is not an AFDC or SSI recipient.

METHOD OF SERVICE PROVISION

The delivery or the provision of social services by any of the following methods: Direct Provision, Purchase Public, and Purchase Private. (See individual definitions.)

PART-TIME DAY CARE - See Day Care, Part Time

PRIMARY RECIPIENT (TITLE XX)

An individual with whom, or for whom, a specific goal is established and to whom services are provided for the purpose of achieving the goal. Services are considered to be provided to the primary recipient when they are provided to other members of the primary recipient's family to facilitate achievement of the primary recipient's goal.

PRIVATE AGENCY

Private, for-profit, and private voluntary not-for-profit agencies, individuals, or organizations who deliver social services under a purchase of service contract.

PUBLIC AGENCY

An agency of State or local government authorized to act for the public and which delivers social services under a purchase of service contract.

PUBLIC SOCIAL SERVICES AGENCY (TITLE XX)

The State agency as designated in the State Administrative Plan and local public agencies authorized by law to administer social services programs in local jurisdictions.

PURCHASE OF SERVICES

Purchase Private

Purchase of social services (as defined in the Comprehensive Annual Services Program Plan) by contractual agreement from individuals or private profit and not-for-profit agencies.

Purchase Public

Purchase of social services (as defined in the Comprehensive Annual Services Program Plan) by contractual agreement from public agencies other than the public social services agency.

REPORTING PERIOD

The time frame for which a social service report is requested.

REPORTING QUARTER

A span of time that covers 3 months. The first quarter of the program year begins October 1 and ends December 31.

REPORTING YEAR

The Federal reporting year is also the Federal fiscal year which begins October 1 and ends September 30 of the following year.

SERVICE PROVISION STATUS

The status of a recipient within the services provision structure: Continued From Last Period, Initiated This Period, Discontinued This Period, and Continuing to Next Period.

SOCIAL SERVICE RECIPIENT

An individual who is provided one or more social services under title IV or XX of the Social Security Act.

SOCIAL SERVICES

For the purposes of the Social Services Reporting Requirements, one or more of the services included in a State's Comprehensive Annual Services Program Plan under title XX or in a State plan under title IV-A/C or IV-B.

SOCIAL SERVICES REPORTING REQUIREMENTS

Federal reporting requirements for statistical information on the title XX, title IV-B, and title IV-A/C programs.

SUPPLEMENTAL SECURITY INCOME (SSI) RECIPIENT

Any aged, blind, or disabled individual who meets the requirements for aid under title XVI of the Social Security Act and who receives monthly cash payments from the Social Security Administration. (Also includes persons who receive State supplemental payments.)

TOTAL COST

Expenditures, comprised of Federal, State, and local costs, including donated funds related to providing social services, incurred by all methods of service delivery, and including the proportionate share of indirect costs and overhead. Fees are not used to offset total cost.

NOTE: Expenditures reported for a given period need not relate directly to the recipients reported. Billing cycles, information lag time, and other factors inhibit a one-for-one relationship between expenditures and recipients in a particular reporting period.

WITHOUT REGARD TO INCOME

A designation of individuals who may receive certain services under a State's Comprehensive Annual Services Program Plan without consideration of their income. The "universal" services which such individuals may receive are: family planning, information and referral, and any service directed at the goal of preventing or remedying neglect, abuse, or exploitation of children or adults unable to protect their own interests.

PROGRAM SUMMARIES

SOCIAL SERVICES (TITLE XX)

The social services program, authorized under title XX of the Social Security Act, became effective October 1, 1975. The program is administered by the Administration for Public Services, Office of Human Development Services, U.S. Department of Health, Education, and Welfare.

Persons eligible for social services are current recipients of AFDC or SSI and, at State option, other persons who meet State and Federal income limitations. States may set any income limit that does not exceed 115 percent of the State median income for a family of four (adjusted for family size). In addition, States may offer information and referral services, family planning services, and/or services directed toward the goal of protection, without an income means test.

States must impose reasonable, income-related fees for services furnished to persons with income over the 80 percent level. States may impose such fees for recipients and persons with income below the 80 percent level.

Under title XX, the Federal Government can reimburse a State for 75 percent of its program expenditures (90 percent for family planning services expenditures) up to but not in excess of the State's population-based share of an annual \$2.5 billion authorization. The \$2.5 billion authorization limit on Federal expenditures for grant-in-aid social services program went into effect in 1972 and was maintained in title XX legislation.

For FY'77, the year covered in this edition of Social Services U.S.A., Public Law 94-401 made an additional \$200 million available for allocation among the States on a population basis. To the extent that a State uses its share of this \$200 million for child day care services, no non-Federal matching expenditure is required.

Each State title XX plan offers at least one service directed to each of five goals:

- Economic self-support.
- Personal self-sufficiency.
- Protection of children and adults from abuse, neglect, and exploitation.
- Prevention and reduction of inappropriate institutionalization by providing community-based services.
- Arrangement for appropriate institutionalization and services when in the best interest of the individual.

Day care for children, protective services, family planning services, homemaker services, and counseling are among the services offered by most States. At least three services must be included for SSI recipients.

Each State is accountable primarily to its own people for program decisions regarding eligibility, services, and distribution of resources.

AID TO FAMILIES WITH DEPENDENT CHILDREN (TITLE IV-A)

The Aid to Families with Dependent Children (AFDC) program was authorized under the Social Security Act and is administered by the Office of Family Assistance of the Social Security Administration.

Begun in 1936, AFDC encourages the care of eligible dependent children in their own homes by enabling States to furnish financial assistance to such children and their parents or the relatives with whom they reside.

Those eligible are children under 18 (with their adult caretakers) who are deprived because of the death, continued absence, or disability of at least one parent (or, in some States, by the unemployment of the father) and who meet State Standards of financial need. At State option, children under 21 attending school are eligible and, under certain conditions, children in foster homes are provided financial assistance under AFDC.

In accordance with Federal statute, each State administers its AFDC plan under a federally approved plan, and each determines its standards of need and payments levels.

The Federal Government reimburses States for a portion of their AFDC payments to recipients; it also finances about 55 percent of State AFDC cash payments.

SUPPLEMENTAL SOCIAL SECURITY INCOME FOR THE AGED, BLIND, AND DISABLED

Supplemental Security Income (SSI) is a Federal income maintenance program for the aged, blind, and disabled in the 50 States and the District of Columbia. Established in 1974, SSI's aim is to provide cash income for aged, blind, and disabled persons who are in financial need. While most of the over 4 million individuals aided by SSI in 1977 were age 65 or older, or blind or disabled adults, a small percentage were disabled or blind children.

People may have some income and resources (assets) and still be eligible for SSI. An individual may be eligible with an income of less than \$189.40 a month; a couple, with less than \$284.10 a month. An individual may have resources up to \$1,500; a couple, up to \$2,250.

In determining eligibility, not all income and resources are counted. Twenty dollars a month of unearned income is ignored, and \$65 plus half of the remainder of earned income a month is not counted. A person's home is not counted regardless of its value; nor are a car, personal effects, or household goods of reasonable value.

Eligibility based on blindness or disability depends on the severity of the applicant's condition. A person 18 or older is considered "disabled" if a physical or mental impairment prevents him or her from doing any substantial, gainful work, and is expected to last or has lasted for at least 12 months, or is expected to result in death. A person whose vision is no better than 20/200 even with glasses, or who has a visual field of 20 degrees or less, is considered "blind."

Other eligibility conditions also must be met.

Currently, the maximum Federal SSI payment is \$189.40 for one person and \$284.10 for a couple. The Federal check may be less, depending on a recipient's income and living arrangements. States may supplement the Federal payment. Increases in the basic Federal payments are tied to the cost of living.

People who receive SSI checks can get Social Security benefits, too, if they are eligible for both.

CHILD WELFARE SERVICES (TITLE IV-B)

Authorized in 1935 when the Social Security Act was established, title IV-B -- Child Welfare Services -- is administered by the Administration for Children, Youth, and Families, Office of Human Development Services.

Child Welfare Services are public social services which supplement or substitute for parental care and supervision in order to:

- (a) Prevent, remedy, or assist in the solution of problems which may result from child neglect, abuse, or exploitation.
- (b) Protect or care for dependent or neglected children.
- (c) Protect and promote the welfare of children of working mothers.
- (d) Otherwise protect and promote the welfare of children, including strengthening their own homes where possible, or, where needed, providing adequate care of children away from their homes in foster family homes or day care or other child care facilities.

Any child is eligible for such services, regardless of the social or economic status of the child or family. This federally aided program operates in all 50 States, the District of Columbia, Guam, Puerto Rico, and the Virgin Islands.

Among the services States can provide under Child Welfare Services are: protective services, preventive services, homemaker services, child day care services, emergency shelter services, foster care services and maintenance, and adoptive services.

WORK INCENTIVE PROGRAM (TITLE IV-A/C)

The Work Incentive (WIN) program was authorized by the Social Security Amendments of 1967 and 1971. The program is designed to help persons receiving Aid to Families with Dependent Children (AFDC) become self-supporting. WIN is jointly administered by the Department of Labor and the Department of Health, Education, and Welfare.

The 1971 Amendment shifted the program emphasis from training to immediate employment. All AFDC applicants and recipients are required, unless exempt by law, to register with WIN for employment and training services as a condition of eligibility. Individuals who are legally exempt have the right to volunteer for WIN if they wish. The WIN sponsor is usually the State employment agency.

WIN utilizes existing employment-related training programs and WIN-funded activities -- both directed toward ultimate placement in unsubsidized jobs. In preparation for this, WIN offers such employment and training services as on-the-job training for persons ready for employment or public service employment arranged by prior agreement with public or private nonprofit organizations for individuals for whom unsubsidized jobs are not available. Employment and training services are supplemented by necessary supportive services, including day care for children, which are provided by or through a separate administrative unit of the welfare agency.

The WIN program provides a WIN registrant who is enrolled in a work experience component or in institutional training, an incentive of \$30 a month in addition to the AFDC grant. A further incentive provision for most WIN registrants who accept placement in unsubsidized jobs is that their first \$30 of earnings each month and one-third of the remainder are disregarded in determining their new welfare grants.

An incentive is also provided to employers: under a provision of the Revenue Act of 1971, employers receive a tax credit for hiring WIN registrants. As an alternative, a welfare tax credit is also available to employers of AFDC welfare recipients; under related legislation, these recipients include WIN registrants.
